| Name of the Gram Panchayat | Kistampet |
| State | Telangana |
| Theme | Health and sanitation, Drinking water and Social welfare |

Gram Panchayat is a model panchayat in terms of panchayat development Gram Sabha for every 2 months. In this Grama Sabha, Mandal level Officers, Village level officers, and Governing body members participate actively and there by the problems of people are solved G P, Governing body members, village level officers and standing Committee members, visit every ward in the village every Friday and identify the Problems which are solved in the Grama Panchayat meeting held in every month

In the part of sanitation maintenance silt and

Garbage removed and dumped into the dumping yard with help of the G. P Tractor and Tricycles. We are taking measures not to stop stagnate water at one point. And oil balls and mosquito spray are used to demolish the larvas of mosquitoes.

Bleaching powder is used Drinking water wells,

water tanks, water standing areas drainage gutters and weekly market areas. Medical camps are

conducted in the rainy season to protect people from the seasonal diseases. Two dustbins have been distributed to every house in the village. The people are instructed to throw wet garbage into Green dust bin dry wastage into blue dust bin. Every day the wastage is collected from door to door by Tricycles and G P Tractor and dumped into waste management shed.

Waste plats in the open areas and Roadsides are removed in order to give healthy atmosphere to people Abandoned, damaged houses are being shelter to snakes, Scorpions and other dangerous creatures. Such houses are demolished with JCBs.

To stop the people from open defecation, we persuaded them to build Toilets. We have

motivated alot in different ways. After having hard regulations imposed on people, they built Individual Toilets. Between 4.00 am to 6.00 am we forming teams patrolled, blew whistles, clapped to stop the open defecation. If anybody got found with a "CHEMBU (VESSEI)" he

used to be called CHEMBU RAJA in order to make them feel ashamed. Not only was that but Rs.500 /- fine imposed on them. We have under taken some measures to stop O.D like Dandora(Tom-Tom), giving prizes in lucky lottery who build toilets in their houses. We declare proudly that we are successful 100% in making people build Toilets. In 2017 our village was declared ODF village. For out comers into the village Community Toilet are built with all facilities.

Rainwater harvesting management and waste water management are main measures taken up in order to increase the main measures taken up in order to increase the ground level water. The G.P has taken up a resolution that the permission for constructing a new house will be given to the people provided that they should have a soak pit priorly, and people who wants to be MGNREGS laborer should have a soak pit in their houses. We explained every house hold the cost for building a soak pit and encouraged them to build within the cost. Thus, we attained success in having soak pits in every house in the village. We made it successful with the cooperation of DRDA PD, DPO, MPDO and other officials of Mandal.

We have sensitized the people about the ill consequences of using plastics. We have prohibited the usage of plastic in the village. We provided the villagers jute bags. Notices are issued to the shop keepers. We motivated with wall writings, Rally meetings about the ill consequences of plastic. If anybody doesn't follow this instruction Rs.500/- fine will be imposed.

Chlorination is done to the OHSR (water tank). Which supplies pure drinking water to the people in village. Leakages and gate valves occasionally repaired every house is provided with safe, purified drinking water.

Gram Panchayat has its own nursery of 50,000 plants capacity. The GP has planted 11,000 fruit plants in different areas. GP Kistampet has distributed 6 plants to each house. Every house has a kitchen garden. Exclusively for Monkeys GP has developed Vanara Vanam (monkey forest) so that they could not destroy the farms and gardens of the villagers.
